

Carriage Trail

Nice hiking loop on trails maintained by the Saratoga Mountain Bike Association (SMBA). Elevation gain is minimal making for a fairly easy walk, however some sections of trail are littered with large rocks potentially making it a moderate hike for some. The majority of this loop is on private land that adjoins the Daniels Road State Forest. Trails are clearly defined and easy to follow.

Local officials and private landowners work in partnership to provide public access to this area. Staying on the path while on private property ensures that agreements between local officials and the landowner are upheld and that this trail remains open to the public in the future.

A basic trail that connects to many others in this system. Ranges from double track to single track to mini rock garden in various sections.

Carriage Trail 2 mile starting ride with many connections, 15 min drive to Daniels Road State Forest
