

# Malta Ecological Nature Park

Explore this 1.00 mile, loop trail near Ballston Spa, New York. It's an easy walk in the park as they say, you can do a figure 8 and pass by the pond for about 2.8 miles. We noticed there are big expansion plans for the future. For now, it's an easy trail for cross-country skiing, walking, and on occasion see the posted story walk that's great for young children. Malta Ecological Nature trail is open year-round and is beautiful in every season.
